

Lesson code		2021-08-01	Level	Primary	Total Time	40mins	Teaching Week	August (02-06)	
Subject		Science	Books	Science factor 4		Page No.	4-9	Class	IV
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1 40 min	What is science?	- Discuss the importance of science - Explain their ideas about scientist.	Textbook, board, marker, paper/sheets	Introduction - Welcome and greet students in the class. - Introduce science as it is a way of learning about everything in our world Methodology (Orientation and group discussion) - Students will introduce themselves to the teacher one by one. - Outline the importance of science emphasizing that it helps us to understand how things work and how things happen. - Students will think about, who a scientist can be? Ask the students to draw or write on the given sheets/paper whatever comes in their mind. Wrap up - Ask students to share what they notice or wonder about a scientist. Home Work Outline the importance of science that it helps us to understand how things work and how things happen.					
Day 2 40 min	Unit 1 The human body Brain	- Identify brain - Explain the functions of brain.	Textbook, board, marker	Introduction Recap of prior knowledge by asking questions for spiral progression. Methodology (Discussion and reasoning method) - Describe and explain function of brain. - Outline that the speed of the message from our brain to the body part. - Students will read and discuss in the class. Wrap up: State that the function of brain by asking questions. Homework Students will revise and learn textbook page 4. https://youtu.be/Wxct-4OJjiI					

Day 3 40 min	Unit 1 The human body Brain	• identify parts of brain • explain the functions of the human brain	Textbook, board, marker, different objects	Introduction • Review homework questions. • Arrange the students into pairs. Students will perform the activity given on pg no 5 in their books. Methodology (Explanation through demonstration method) • Illustrate the diagram of human brain on the writing board. • Explain the functions of four parts of human brain. • After the discussion, ask an efficient student to read aloud the topic • Teacher and students will discuss questions and let the students write its answer in their notebooks independently. Wrap up Ask any efficient students to come on board and explain parts of the brain. Homework Revise the topic, go through the written work do the corrections and learn the answers done in class • https://youtu.be/BYAKfbmycNY
Day 4 40 min	Unit 1 The human body Heart	• identify the parts of human heart	Textbook, board, marker, worksheet	Introduction: • Distribute the human heart pictures in the students. Students will paste human heart in their notebook. Methodology (Discussion, questioning and demonstration method) • Teacher will show diagrams of the heart and read aloud the labels. • Discuss structure and function of human heart. • Discuss the facts of the human heart. • Students and teacher will discuss oral activity on pg. 7 and students will then note down their answer independently. Wrap up Students will discuss and solve human heart worksheet. Homework Students will revise and learn structure of human heart. • https://youtu.be/k6KWp_pbSuk

Day 5 40 min	Unit 1 The human body Worksheet	Recall the taught concepts	Textbook, board, marker, worksheet	Introduction Prepare the class that they are going to solve worksheets Methodology (Brainstorming and questioning method) - Give worksheets to students - Explain all the questions - Let the students solve the worksheets independently. Wrap up Discuss the answers of the worksheets in the class. Homework Students will revise and learn class work.

Worksheet
Unit 1: The human body

Subject: Science
Name: _____

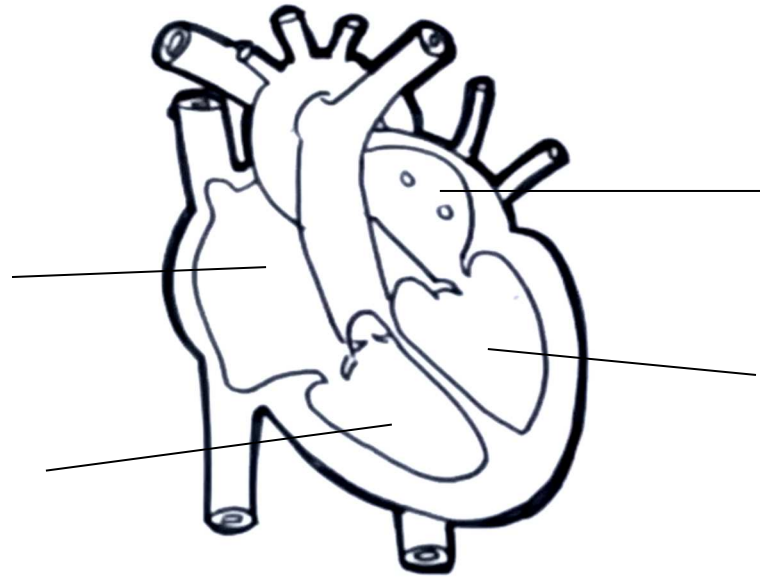

Class: IV
Date: _____

Q1. Label the parts of human brain.

HUMAN BRAIN

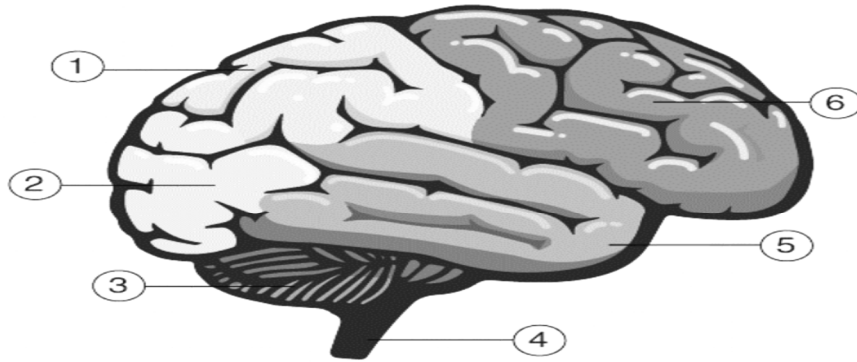

Q2. Label the diagram of human heart.

Answer key

Q1.

HUMAN BRAIN

- | | | |
|-----------------|------------------|----------------|
| 1 Parietal Lobe | 2 Occipital Lobe | 3 Cerebellum |
| 4 Spinal Cord | 5 Temporal Lobe | 6 Frontal Lobe |

Q2.
