

Lesson code		2021-08-02	Level	Primary	Total Time	40mins	Teaching Week	Aug (09-13)	
Subject		Science	Books	Science factor 4		Page No. 10-11		Class	IV
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1 40 min	Unit 1 The human body Stomach and Intestine	Categorize the function of stomach and intestines	Textbook, board, marker, chart/ model	Introduction Display human digestive system in the class and ask the students to identify stomach, small and large intestine. Methodology (Demonstrating method) - Explain the structure and working of stomach and intestines. - Ask the students to do (PALS) peer-assisted learning reading in the class pair strong and weak readers who take turns reading, re reading and retelling. - Teacher will encourage students to participate in the class discussion. Wrap up To close the topic, recall that how intestines work. Home Work Use the link to solve the following question; Q: What does the intestine do? https://youtu.be/IRG_vq9KHA4					
Day 2 40 min	Unit 1 The human body Muscles	Identify and describe working of human muscles	Textbook, board, marker	Introduction Revise the learning from the previous session by asking individual students what they can recall about the functions of the stomach and intestine. Methodology - Explain the working of human muscles by drawing on the board. - Students will read and discuss in the class. - Teacher will encourage students to participate in the class discussion. Wrap up: Students will describe the working of muscles. Homework Revise and learn class work					
Day 3 40 min	Unit 1 The human body Bones	Pinpoint bones and their function	Textbook, board, marker	Introduction Review human muscles and ask brainstorming questions. Methodology (Think pair and share) - Divide the students in pairs and ask them to silently read the paragraphs on addendum pg. 11 - Ask the students to discuss with each other. - Explain and discuss about bones in human body.					

				Wrap up Recap of the lesson by asking questions; Define bones. Homework Revise and learn class work
Day 4 40 min	Unit 1 The human body Review	Comprehend knowledge about human body	Textbook, board, marker	Introduction Review homework and ask questions for brainstorming session. Methodology (Group based learning) - Divide the students into mixed ability groups. - Ask the students to discuss questions in groups and then solve questions in their notebooks independently. Wrap up Recap of the lesson by sharing answer in the class. Homework Revise and learn class work

Worksheet

Topic: Unit 1

Name: _____

Class: IV

Date: _____

Q. Read the statement carefully and encircle the correct option.

1. Intestines are part of:

- a. Circulatory system b. Digestive system c. Nervous system d. Excretory system

2. How many intestines are present in human body?

- a. 4 b. 1 c. 2 d. 5

3. The intestines are like:

- a. Threads b. Circles c. Tubes d. Square

4. The large intestine is _____ meter long.

- a. three b. one c. five d. four

5. The small intestine is _____ meters long.

- a. one, b. six c. two d. seven

6. _____ make up the framework (skeleton) of the body.

- a. Muscles b. Bones c. Stomach d. Intestines

Answer key

1. Intestines are part of:

- a. Circulatory system **b. Digestive system** c. Nervous system d. Excretory system

2. How many intestines are present in human body?

- a. 4 b. 1 **c. 2** d. 5

3. The intestines are like:

- a. Threads b. Circles **c. Tubes** d. Square

4. The large intestine is _____ meter long.

- a. three **b. one** c. five d. four

5. The small intestine is _____ meter long.

- a. one, **b. six** c. two d. seven

6. _____ make up the framework (skeleton) of the body.

- a. Muscles **b. Bones** c. Stomach d. Intestines
