

Lesson Code		2022-08-01		Level	Primary	Total Time	40mins	Teaching Week	August(01-05)	
Subject		Computer Science		Books	Online with Computers 02 (Revised Edition)		Page No.	5-6	Class	II
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies						
Day 1	Computers Around us	get introduction about computer science	Textbook	Introduction - On the 1st day of the class, interact with the students in a friendly manner. - Introduce yourself and about the subject. - Ask the names of the students. Methodology - Ask the students if they remember the definition of computer science. - Listen to their answers and write them on the board. - Write the correct definition of computer science on the board. - Explain the different parts of computer. - Make groups of 4 or 5. Ask the students to discuss amongst themselves what are the uses of computer and its parts. Always keeping the social distance and following the SOPs. Discussion Method - Ask the students if they remember the definition of computer science. - Listen to their answers and write them on the board. - Write the correct definition of computer science on the board. - Explain the different parts of computer. - Make groups of 4 or 5. Ask the students to discuss amongst themselves what are the uses of computer and its parts. Always keeping the social distance and following the SOPs. Wrap up - To wrap up the lesson, summarize the questions discussed in the class. Home Work						
Day 2	Computers Around us	define computer	Textbook	Introduction To check the prior knowledge of students, following questions will be asked: Ask each student to name one man-made machine. Write all their contributions on the writing board, under the headings "man-made machines". Note down the responses of students on the writing board and discuss the answers with the class. Methodology - Conduct the class in computer lab. - Explain the definition of computer. - Discuss that computer is an electronic machine It helps us to write, draw and learn. - Write down the names of different parts of computer on the board. - Discuss the uses of each parts of computer. - Show the students each part of computer and define their uses. - Tell them that we can do a lot of things on a computer, explain each uses mentioned on page 6. Discussion and pair share work Teacher Note: It should be remembered that, all the written work mentioned in exercise related to page 5 & 6 of that chapter is to be done on the same or the next day. Don't wait for the end of the chapter. Wrap up To check that objective has been achieved or not, ask some questions from the students. Such as: 1. Can computers be used for reading?						

				2. Why do computers have become very important in our lives? 3. Can a computer work by itself? 4. What are the uses of computers? Home Work: Write down the answers of questions (Part D Q2 & Q4) on textbook page 10 in the notebooks.
Day 3	Computers Around us	complete the worksheet related to the topic	Textbook	Introduction • To recall the prior knowledge, following question will be asked from students: 1. What are the uses of computers Methodology • Students will complete both activities correctly help them if required. • Worksheet will be distributed to the class. • Checked worksheet will be pasted on student's notebook. Wrap up To wrap up the lesson, summarize the lesson by discussing correct answers of the questions given in the worksheet. Home Work

Worksheet for day 3:

Name: _____

Class: 2

Chapter: Computers Around us

Q. Identify the uses of computer from the pictures and write down the names in the given space.

Hint: Learn Watch cartoon Play game Draw Listen to music solve maths sums

Day	Chapter Topic	Objectives: The students will be able to:			Teaching Resources:	Teaching Learning Strategies									
Day 1	Computers Around us	differentiate between computers and human beings identify different types of computer			Textbook	Introduction - To recall the prior knowledge, following question will be asked from students: - Can a computer work by itself? Methodology - Discuss the features and uses of computers in detail. - Differentiate between computer and human being. - The parts of body and their functions will be matched with the working and functions of different parts of computer. - Now read page 7 and ask the students to differentiate between humans and computers. Discussion Method - Discuss the different sizes of computer in detail. - Make them familiar with commonly available types and sizes of computer. - Explain the following sizes/ types of computer: Wrap up To check that objective has been achieved or not, ask some questions from the students. Such as: - In what ways can a computer help you? - Name few things that both human and the computer can do. Home Work Solve the worksheet.									
Day 2	Computers Around us	understand computer etiquette learn the key terms			Textbook	Introduction - To recall the prior knowledge, following question will be asked from students: - Define desktop computer. Methodology - Students will open page no.8 of the textbook and read it loudly one by one. - Computer Etiquette will be explained with the help of pictures given on page no.8 in details. - Explain Lab rules. - Discuss the following key terms: - Computer is an electronic machine. It helps to write, draw and learn. - Desktop computer is a medium-sized computer and is kept on a desk to work. - Laptop computer can be carried while travelling and can also work on a battery. - A tablet computer is a mobile like computer. - Smartphone is a mobile which has new features in it. Wrap up To check that objective has been achieved or not, ask some questions from the students. Such as: - Define Smartphone. - Differentiate between laptop and tablet computer. Home Work Solve the worksheet.									

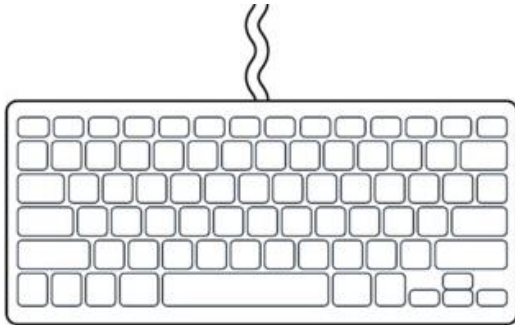

Worksheet for day 1:

Name: _____

Chapter: Computers Around us

Q. Label the parts of computer.

Class: 2
