

Lesson code		2022-08-03	Level	Primary	Total Time	40mins	Teaching Week	Aug (15 – 19)	
Subject		Mathematics	Books	New countdown 1 3 rd Edition		Page No.	8 – 11	Class	1
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1	Practice Sheets 11 & 12	Find the shapes and colour them.	Textbook	Introduction; - Teacher will revise the properties of 2D and 3d shapes. Methodology: - Teacher will explain the practice sheet 11 and 12 given on page 165 and 166 on new countdown 1. - Teacher will ask students find the shapes and colour them according to given instructions. - Students will complete the practice sheet 11& 12 given on page 16 and 166 new countdown1 on their textbooks.					
Day 2	1: Getting Ready Subtraction	subtract numbers vertically and horizontally	Textbook	Introduction; To revise the previous lesson, draw different number line on the board and write different sum on the board and call any volunteer to solve the sum with the help of number line. Methodology: - Explain the horizontal method to solve the subtraction sums given on page 7 in Q2. - Students will solve the sums on their textbooks. Wrap up/Summary - To wrap up teacher will draw a number line on the board. Use the number line to count back to subtract. Show you work on the number line. Also write these sums horizontally and check the answer is same. 1. $4 - 4 = \underline{\quad}$ 2. $8 - 6 = \underline{\quad}$ 3. $9 - 6 = \underline{\quad}$					
Day3	1: Getting Ready Do you Remember Zero?	understand that adding or subtracting '0' from a number does not affect the sum or difference.	Textbook	Introduction; To revise the previous lesson, write subtraction sum on the board and call any volunteer to come and solve the sum. Methodology: - Explain that zero by itself means nothing. - Any number added to a zero remains the same. e. g : $4 + 0 = 4$ - When we subtract zero from a number, the number stays the same. e. g : $9 - 0 = 9$ Write the number stories. $1 + 0 = 1$ $7 + 0 = 9$ $3 - 3 = 0$ $5 - 0 = 8$ - Also explain examples given on page.8 on textbook. - Explain given worksheet and students will complete the worksheet.					

Day 4	1: Getting Ready Making 10	- define how to make 10 in addition and subtraction with the help of number line. - add 2 numbers to make 10. - compose the number 10 using two addends.	Textbook	Introduction: Revise the previous lesson by asking some questions. $8 - 5 = \underline{\quad}$ $6 - 3 = \underline{\quad}$ Teacher will write different sums on the board and call any random student to solve the sum on the board and other students will check the solution of the sum. Methodology: - Explain Q1 & 2 given on pg. 9 with the help of number line. - Students will solve question 1 and 2 in pairs. Wrap up: - To check whether the objective has been achieved or not, teacher will do an activity explain Q3 given on page 11. Make group of three students and students will find the pair of numbers who make 10. And highlight each pair with different colours. Homework: Practice the class work.

Worksheet for 3rd day

Work sheet

Name: _____

Subject: Mathematics

Class: I

Date: _____

Topic: Add & subtract zero

$$\begin{array}{r} 5 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 0 \\ +4 \\ \hline \end{array}$$

$$\begin{array}{r} 3 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 2 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 9 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 6 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 8 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 0 \\ +7 \\ \hline \end{array}$$

$$\begin{array}{r} 5 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 1 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 4 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 9 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 6 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 3 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 2 \\ +0 \\ \hline \end{array}$$

$$\begin{array}{r} 6 \\ -6 \\ \hline \end{array}$$

$$\begin{array}{r} 8 \\ -8 \\ \hline \end{array}$$

$$\begin{array}{r} 5 \\ -0 \\ \hline \end{array}$$

$$\begin{array}{r} 7 \\ -7 \\ \hline \end{array}$$

$$\begin{array}{r} 7 \\ -0 \\ \hline \end{array}$$

$$\begin{array}{r} 4 \\ -4 \\ \hline \end{array}$$

$$\begin{array}{r} 1 \\ -0 \\ \hline \end{array}$$

$$\begin{array}{r} 2 \\ -2 \\ \hline \end{array}$$

$$\begin{array}{r} 1 \\ -1 \\ \hline \end{array}$$

$$\begin{array}{r} 2 \\ -0 \\ \hline \end{array}$$

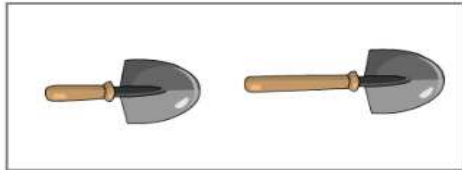

$$\begin{array}{r} 4 \\ -0 \\ \hline \end{array}$$

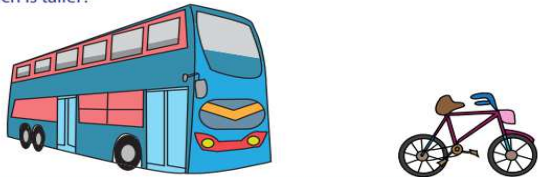

$$\begin{array}{r} 8 \\ -0 \\ \hline \end{array}$$

$$\begin{array}{r} 9 \\ -9 \\ \hline \end{array}$$

$$\begin{array}{r} 6 \\ -6 \\ \hline \end{array}$$

$$\begin{array}{r} 7 \\ -7 \\ \hline \end{array}$$

Lesson Code		2022-08-04	Level	Primary	Total Time	40mins	Teaching Week	Aug (22 – 26)	
Subject		Mathematics	Books	New countdown 1 3 rd Edition		Page No.	12 – 21	Class	1
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1	1: Getting Ready	- identify big and small. - students will compare two objects according to size. - learn to compare size. - identify long and short.	Textbook	Introduction: To check the prior knowledge, ask some questions - Does the size of an apple and watermelon is same? - Does the cat is bigger than a dog? - Which is smaller; a sofa or a chair? Methodology: - Draw different objects on the board, draw some object big and some small and ask students to compare size and identify which things are big and small. - Teacher will ask students open page 12 from third edition new countdown 1. - And students will find the things which are big and small colour the smaller object blue and bigger objects red. - After that teacher willask student identify which object is smaller and bigger and write smaller and bigger under every object. - Students will complete the page 13 and write smaller and bigger. Wrap up: - Look at the pairs of objects below. Circle the object that is long and cross that is short.   Homework: Students will complete the page 14and write longer and shorter					
Day 2	1: Getting Ready	- differentiate between short and long. - identify taller and shorter. - students will compare identify size of things	Textbook Worksheet	Introduction; To revise the previous lesson, drawdifferent types of shapes on the board and call any volunteer to come up and write the name of the shapes. Methodology: - Teacher will explain student with some pairs of things with one long and one short. - Students will identify the longer and shorter objects. - Students will also draw longer or shorter object on page 15. - Explain Q1 given on pg: 16 identify taller and shorter things and draw things according to question required. - Explain worksheet and ask complete the worksheet. Assessment: - To check whether the objective has been achieved or not, ask students tick the tall one and cross out the short one in each section.					

				Which is taller?  Which is shorter?  Homework: Students will complete the given worksheet.
Day 3	2: Numbers	• read and learn place value numbers up to 20. • identify tens and ones and write the missing numbers. • identify tens and ones and write the numbers in tens and ones.	Textbook	Introduction: • Introduce the new concept teacher will ask following questions: • Write 12 in words. • Write nine in number. Methodology: • Teacher will explain how to write numbers in tens and ones by solving multiples question of Q1 given on page 17. • Students will complete the Q1 pages: 17 on their textbooks. • Explain how to find missing numbers when tens and ones. • Students will be explained Q2 & 3 find missing number given on page 18. • Students will solve the Q2 given on page 18 on their textbooks. Wrap up: • Teacher will write different number up to 20 on the board and call student write the numbers in tens and ones. Homework: Students will solve the Q 3 given on page 18 on their textbooks.
Day 4	2: Numbers	• Write the tens and ones in numbers • Write the number in word and figures	Textbook	Introduction; To revise the previous lesson, ask students write the numbers in tens and ones. Methodology: • Teacher wills how to write numbers in tens and ones. • Students will be explained Q4 write tens and ones in numbers and Q5 write tens and ones in word and figure given on page 19. • Students will solve the Q 4 given on page 19 on their textbooks. Homework: Students will solve the Q5 given on page 19 on their textbooks.
Day 5	2: Numbers	• read and learn place value numbers up to 20 with the help of abacus.	Textbook	Introduction: Introduce the new concept teacher will ask following questions: • Write 19 in words. • Write twelve in number. Methodology:

		• Read the number from abacus and write the number. • Write the name of number with the help of abacus. • Draw beads on the abacus.	• Teacher will explain parts of abacus and their place given on page 20. • Also teacher will explain how to read, write the number on abacus. • Teacher will explain Q6 - 8 given on page 20-21 with the help of abacus beads students will identify the number and write the number in the given box. • Students will complete the Q6 - 8 pages: 20-21 on their textbooks. Wrap up: • Teacher will revise the concept number up to 20 with the help of given link. Link https://www.youtube.com/watch?v=FF07ytw1VPc https://www.youtube.com/watch?v=_dTH6ketvA Homework: • Students will complete the given worksheet.

Name: _____

Subject: Mathematics

Class: I

Date: _____

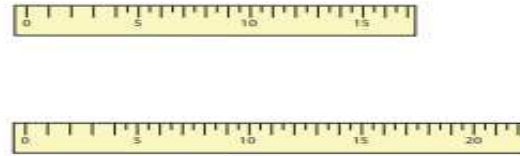

Long vs. Short

Look at the pictures below and answer the questions by circling the correct picture.

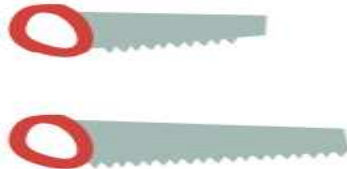

Whose hair is *shorter*?

Which ruler is *longer*?

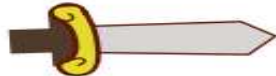

Which saw is *longer*?

Which necktie is *shorter*?

Draw a *longer* sword.

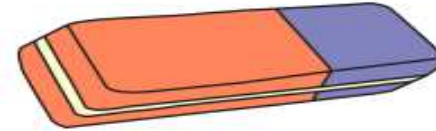

Draw a *longer* toothbrush.

1. Which is longer?

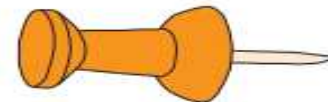

2. Which is shorter?

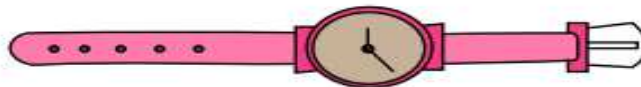

3. Which is shorter?

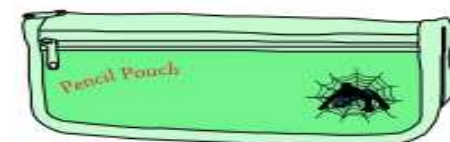

4. Which is longer?

5. Which is longer?

6. Which is shorter?

Name: _____

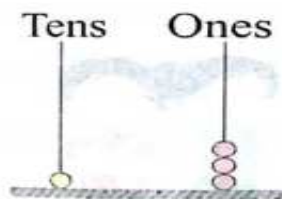

Subject: Mathematics

Class: I

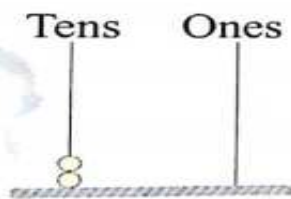

Date: _____

Topic: Place Value

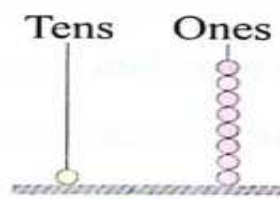

Q1-Write the numbers shown on the abacus.

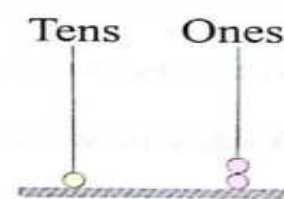

13

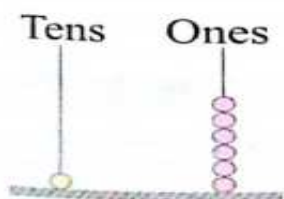

20

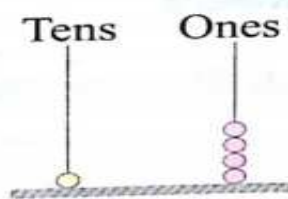

10

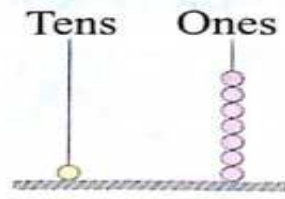

12

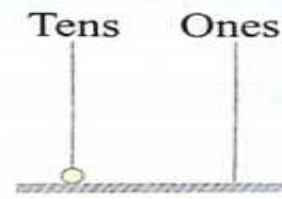

18

14

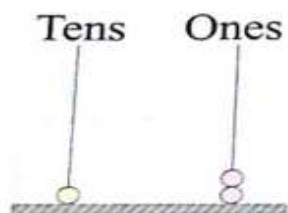

16

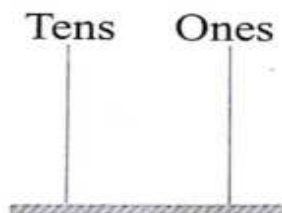

10

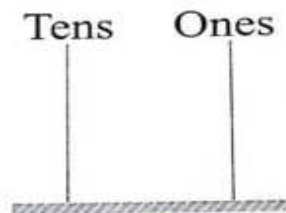

Q2-Draw beads on the abacus for the numbers given.

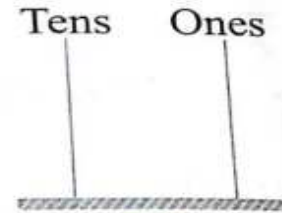

12

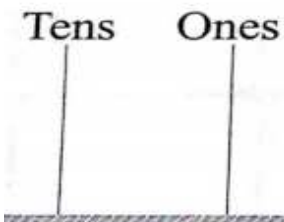

14

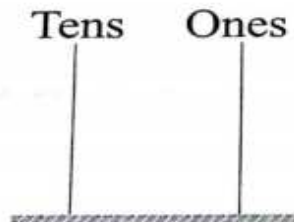

8

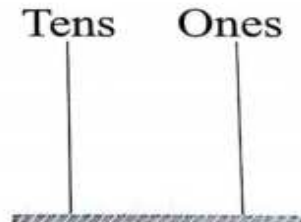

6

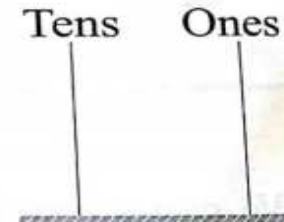

18

7

10
