

Lesson Code		2022-08-01	Level	Primary	Total Time	40mins	Teaching Week	Aug (01 – 05)	
Subject		Mathematics	Books	New countdown 2 3 rd Edition		Page No.	1 – 5	Class	2
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1		Be familiar with their classmates and teacher in a relaxed atmosphere.	Textbook	Introduction: - Teacher will introduce his/her self in class with a pleasant smile. Activity: Provide a self-portrait worksheet such as the one below as an easy beginning-of-year activity. When everyone is finished, have each student present their self-portrait to the class as formal introduction to their colleagues and to the teacher as well. - Teacher will ask students to draw a self-portrait in their notebooks. They can share their portraits with their friends and get to know each other. Wrap up: From this activity students can know the other students and have a good communication with each other.					
Day 2	1: Numbers	- Reinforce the number operations within one or two digit. - Revise the relationship between addition, subtraction, multiplication and division.	Textbook Worksheet	Introduction; - To revise the addition, multiplication subtraction and division concept write few questions on the board and ask students to solve the question after solution of sums ask students which operation he/she used and why. $6 + 8 - 2 = \underline{\quad}$ $25 - 10 + 7 = \underline{\quad}$ $7 - 3 \times 4 \div 6$ Methodology: - Teacher will explain Q1 activity given on page 1 and asks students with the help of four operations (without any operations rules) solve the each part of activity and follow arrow direction to solve the sums. - Also explain given worksheet use four operations (addition, subtraction, multiplication and division) signs and complete the worksheet. - Students will follow teacher instructions and solve the activity and worksheet as well. Wrap up: Teacher will write some question on the board and ask the students solve the questions with the help of symbols.					
Day 3	Do you remember? Putting in order Page 2& 3	- Learn the vocabulary "less than" "greater than", "equal", before, after, and between. - Compare two-digit numbers, using the symbols for greater than, less than, and equal to. - Write the numbers before after and between. - write number in order	Textbook	Introduction; - To begin the lesson, tell the class that they will be practicing comparing numbers. - Remind the class that compare means to see if one number is the same as, smaller than, or bigger than another number. - Write the terms greater than, less than, and equal to on the whiteboard with symbols. - Teacher will conduct a verbal activity given on page 2 ,Q2 - Teacher will tell the students we will compare the number less than or greater than and you will write the symbol between the numbers on their textbooks Methodology: - Let the students revise the concept of before, between & after. - Explain Q3 given on page 2 with the help of different examples.					

		(ascending or descending)		- Students will follow teacher instruction and solve the question 3 in pairs on the textbooks. - Revise the concept of ordering in ascending and descending order - explain Q4&5 given on pg.3 - Students will complete the question 4 on their textbooks. Wrap up: Teacher will verbally ask which number comes before any numbers and evaluate the student's the objective has been achieved or not. Homework: - Students will complete question 5 on their textbooks given on pg. 3
Day 4	1: Place Value Page 4	- Revise the number in words from 0 to 1000 - Reinforce the concept of place value. - Distinguish between the tens and one's place value. - Use tens and ones blocks to make numbers.	Textbook Magic of tables	Introduction - Put a two-digit number on the board. Ask, "Who can tell me what this number is?" Allow the students to respond. Say, "Today, we will be reviewing place values. Our main focus will be the tens and ones places." Tell the students they will be reviewing by working with tens and ones units and rods. - Students will revise the numbers name given on page 01 in magic of table's book. Methodology - Teacher will ask students to complete the page number 04 given on new countdown 2 3rd edition. - Students will write the numbers in tens and ones place with the help of objects given on page 4 and write the numbers in tens and ones on page 4. Wrap up - Teacher will write some numbers on the board and students tell which numbers is at ones place or tens place.
Day 5	1: Place Value Page 5	Understand ones and tens in a number.	Textbook	Introduction - Teacher will revise the previous lesson, following questions may be asked - Write in words 4 tens and 8 ones: ----- - Write in number 3 tens 9 ones: ----- Methodology - Teacher will explain Q 7 and 8 given on page 5 - Students will complete the question in pair work. - After that every pair will share their work to other pairs and teacher will check their work.

Worksheet for 2nd day

Worksheet

Name: _____

Subject: Mathematics

Class: II

Date: _____

- Determine the mathematical operation needed to make the equation true.
- Write your answer in the space provided.
- Add the operation symbols: addition (+), subtraction (-), multiplication(x), or division () to complete the equation.

1. $7 \bigcirc 3 = 10$ **2.** $8 \bigcirc 8 = 16$ **3.** $9 \bigcirc 5 = 4$

4. $4 \bigcirc 5 = 20$ **5.** $7 \bigcirc 2 = 5$ **6.** $9 \bigcirc 8 = 17$

7. $9 \bigcirc 3 = 3$ **8.** $5 \bigcirc 5 = 25$ **9.** $6 \bigcirc 3 = 2$

10. $15 \bigcirc 3 = 5$

11. $12 \bigcirc 17 = 29$

12. $25 \bigcirc 10 = 15$

13. $18 \bigcirc 9 = 2$

14. $36 \bigcirc 16 = 20$

15. $12 \bigcirc 12 = 24$
