

Lesson Code		2022-08-01	Level	Primary	Total Time	40mins	Teaching Week	Aug (01 – 05)	
Subject		Mathematics	Books	New countdown 3 3rd Edition		Page No.	1 – 8	Class	3
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1		be familiar with their classmates and teacher in a relaxed atmosphere.	Textbook	Introduction: - Teacher will introduce his/her self in class with a pleasant smile. Activity: Provide a self-portrait worksheet such as the one below as an easy beginning-of-year activity. When everyone is finished, have each student present their self-portrait to the class as formal introduction to their colleagues and to yourself! - Teacher will ask students you will draw a self-portrait in your notebooks. - Teacher will show students how to décor page with name and tag page as first day in school. And draw his/her self-portrait. - When everyone complete the portrait, student present their self-portrait to the class as formal introduction to their colleagues and to yourself! Wrap up: From this activity students can know the other students and have a good communication with each another.					
Day 2	1: Numbers	categorize odd and even numbers	Textbook	Introduction; - In order to gain student interest, teacher can ask for 10 student volunteers to come to the front of the class. - As a class, count how many students are standing. - Next, have each student find a partner (since there are 10 students, everyone will have a partner). Write 10 on the board under the word "even". - Explain to students that everyone has a partner because 10 is an "even" number. - Ask 2 students to sit down, leaving 8 students standing. . Everyone should have a partner. Write 8 on the board under "even". Repeat this process with 6, 4, and 2 students. - Ask students what they think would happen if there were 9 students standing. Would everyone have a partner? Repeat for 7, 5, 3, 1 - Students should be able to tell you that a student will be left without a partner for 7, 5, 3, and 1. Methodology: - Teacher will explain to students that "even" numbers end with a 0, 2, 4, 6, or 8 and all other numbers are "odd". - Explain example given on page 2 new countdown 3. - Also explain Q6 and 7 given in the ex 1 at page 31. - Students will follow teacher instruction and solve the Q6 and 7 in the notebooks, Wrap up: - Even numbers are exactly divided by 2. They end with 0,2,4,6 or 8. - Odd numbers are not exactly divided by 2.					

Day 3	Roman numbers Page 2 to 5	- define 'Roman numeral' - explain the rules of Roman numerals - describe and demonstrate how to convert Roman numerals	Textbook Magic of tables	Introduction: - Teacher will introduce Roman numbers given on page 2 and 3. Share the history of Roman numbers and highlight the 7 letters of ALPHABETS that used for Roman numbers. Also tell the students Roman numbers have not the symbol of zero. Methodology: - Tell the students how roman formed with the help of seven alphabets numbers. Also explain the numbers with the help of magic of table book e page 1. - Teacher will explain the rule I and II. - Teacher will explain activity given on page 5 and make pairs of the students. And assign each a pair a question given in activity on page 5. - Students will follow teacher instruction and solve the questions 1 to 3 in pairs on the textbooks. - After complete the questions teacher will ask pairs of students who assign Q1 will share their answers with each other similarly Q2 and Q3 assigned students share their work to each other. - After that explain Q4 and 5 given on pg.30 - Students will complete the question 4 on their textbooks. Wrap up: To wrap up teacher will verbally ask any number and students will convert the number into roman number. 1 in Roman Numerals is I 5 in Roman Numerals is V 10 in Roman Numerals is X 50 in Roman Numerals is L 100 in Roman Numerals is C 500 in Roman Numerals is D 1000 in Roman Numerals is M Homework: - Students will complete the question 5 on their textbooks given on pg. 30
Day 4	4 digit numbers Remember 1 thousand Page 6 - 7	- Revise the number in words from 0 to 1000 - reinforce the concept of place value. - distinguish between the tens and ones place value. - use tens and ones blocks to make numbers.	Textbook	Introduction - Teacher will revise the concept of place value ones, tens and hundred. Methodology - Teacher will also revise the concept of thousand given on page 6. - After this teacher will explain the activity let us practice given on page 7. - Students will complete the activity given on the page 7. - Teacher will explain the given worksheet and students will solve the worksheet individually. Wrap up - Teacher will write some numbers on the board and students tell which numbers is at their places
Day 5	1: Place Value Page 5	Write the 4 digits numbers name.	Textbook	Introduction - Teacher will revise the previous lesson, and write four digit numbers on the board and call some volunteer draw beads on abacus with the help of given number. Methodology - Teacher will the example given on page 8. Also explain the Q 1 let us practice and students will complete the question in their textbooks. - Students will complete the question in pair work. - After that every pair share their work to other pairs and teacher will check their work.

Work sheet

Name: _____

Subject: Mathematics

Class: II

Date: _____

- Count and write. Then draw beads on abacus.
