

Lesson Code		2022-08-01	Level	Primary	Total Time	40mins	Teaching Week	Aug (01 – 05)	
Subject		Mathematics	Books	New countdown 4 3 rd Edition		Page No.	2 – 7	Class	4
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1		be familiar with their classmates and teacher in a relaxed atmosphere.	Textbook Printable questions	Introduction: - Teacher will introduce his/her self in class with a pleasant smile. Activity: Teacher will Lead, guide, and stimulate healthy debate among students with a set of questions that are sure to get the classroom talking. Consider a few examples of “would you rather” questions, such as: - Would you rather play outdoors or indoors? - Would you rather see a firework display or a circus performance? - Would you rather go skiing or go to a water park? - Would you rather everything in your house be one color or every single wall and door be a different color? To keep the class on the same page, consider preparing a few questions on a printable such as the one below.					
Day 2	1: Numbers	Identify the value of each digit in a given number from ones to millions.	Textbook	Introduction; - Display a 7 to 9-digit number for students to read aloud as a group or one student at a time - Use a number with an interesting meaning (Distance from a planet to the Sun, etc.) - Ask students if they can guess the significance of the number - Allow students to identify the place value for each digit. Methodology: - Teacher will explain 6, 7, 8, and 9 digit numbers chart given on page 2 new countdown 4. - Also explain the example given on page how to read and write the numbers up to 7 digit to 9 digit - Explain examples 1 and 2 given on page 3 new countdown 4. - Also explain Q4, 5, and 6 given in the ex 1a at page 6 & 7. - Students will follow teacher instruction and solve the Q4 and 5 in their notebooks, Wrap up: - How would you write the number four hundred fifteen million, three hundred seventy-five thousand, eight hundred sixty? - In the number 123,456,789, which digit is in the ten thousands place?					
Day 3	1: Numbers	- Write the numbers in expanded form. - Identify the numbers place value. - Make numbers in different digits		Introduction: - Teacher will draw place value chart up to million on the board. After that divide class into five groups and give every group nine digit number. - Ask student come any volunteer from each group and write the assign number according to place value of digit on the chart. Methodology:					

Day 4	1: Numbers	• Compare and order 8 digit numbers. • Write the numbers in ascending or descending order. • write number predecessor and successors		Methodology • Teacher will explain comparing and ordering 8-digit numbers
Day 5	1: Numbers	• Complete the objective part of Ex 1a.	Textbook	Introduction • Teacher will revise the previous lesson, and write nine digit numbers on the board and call some volunteer to read the number. Methodology • Teacher will explain the students Q1 to 3 given on page 6. • Students will complete the fill in the blanks. • Also complete the question identify the true or false statement and rewrite the false statement after correcting it. • Students will also complete the Q 3.
