

Lesson Code		2022-08-02	Level	Primary	Total Time	40mins	Teaching Week	Aug (08 – 12)	
Subject		Mathematics	Books	New countdown 4 3rd Edition		Page No.	8 – 15	Class	4
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1	1: numbers and Arithmetic operation	Add up to 6 digits' number.	Textbook	Introduction: - Teacher will revise the concept of addition with regrouping converting place value also. Write different sums up to 5 digits on the board and recall the addition of 5 digit numbers. Methodology: - Teacher will explain the example of addition given on page 8. - Also explain Q 1 to 6 given in exercise 1b on page 9 and 10. - Teacher will explain word problem no 1 and 3 given on page 10 & 11. - Teacher will ask students solve any three questions from Q 4, 5, & 6 in pairs. - Students will solve the sums in the notebooks and tally their answer with their partner. - Students will follow teacher instruction and solve the Q 4 to 6 on their textbooks. Wrap up: To wrap up lesson teacher will ask objective type question 1 to 3 from exercise 1b. Ask true false statements and ask students rewrite the false statement. Homework: - Students will solve the word problem Q1 and 3 given from page 10 & 11 in their notebooks given on pg. 10					
Day 2	1: numbers and Arithmetic operation	Subtract upto 6 digit numbers	Textbook	Introduction: - Teacher will revise the concept of subtraction with regrouping converting place value also. Write different sums up to 5 digits on the board and recall the subtraction of 5 digit numbers. Methodology: - Teacher will explain the example of subtraction given on page 8. - Also explain Q 7 to 10 given in exercise 1b on page 10. - Students will follow teacher instruction and solve the Q8 to 10 in their notebooks. Homework: - Students will complete the question 2 and Q4 to 7 word problems in their textbooks given on pg. 10 & 11.					
Day 4	1: numbers and Arithmetic operation	Multiply 5 digit numbers by 3 digit numbers.	Textbook	Introduction: - Teacher will revise the concept of multiplication with different multiplicand and multiplier. Methodology - Teacher will explain example of multiplication with 5 digits' multiplicand by 3-digit multiplier. - After this teacher will explain the Q4, 5 and 6 - Students will solve the Q 4 & 5 in their notebooks Homework: - Students will complete the question 6 in their notebooks given on pg. 15
