

Lesson Code		2022-08-01	Level	Primary	Total Time	40mins	Teaching Week	Aug (01 – 05)	
Subject		Mathematics	Books	New countdown 5 3rd Edition		Page No.	2 – 7	Class	5
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1		be familiar with their classmates and teacher in a relaxed atmosphere.	Textbook Printable questions	Introduction: - Teacher will introduce his/her self in class with a pleasant smile. Activity: Teacher will Lead, guide, and stimulate healthy debate among students take a survey of how students like to learn, teacher will add more questions in the given questionnaire. And distribute or write it on the board so that every student can be responsive - Students will share their responses with their class.					
Day 2	1: Numbers And Arithmetic operations	Identify the value of each digit in a given number from ones to billions.	Textbook	Introduction; - Display a 7 to 9-digit number for students to read aloud as a group or one student at a time - Use a number with an interesting meaning (Distance from a planet to the Sun, etc.) - Ask students if they can guess the significance of the number - Allow students to identify the place value for each digit. Methodology: - Teacher will explain the 9 and 10 digit numbers chart given on page 2 new countdown 5. - Also explain the example given on page how to read and write the numbers up to 10 digit - Explain examples 1 to 4 given on page 2 new countdown 5. - Also explain Q4, 5, and 6 given in the ex 1a at page 6 & 7. - Students will follow teacher instruction and solve the Q1to 4 in their notebooks and textbooks. Wrap up: - Write the following number in words. 2,804,925,851 7,896,452,145					
Day 3	1: Numbers And Arithmetic operations	Write the numbers in figures and words.	Textbook	Introduction: - Teacher will draw place value chart up to billion on the board. After that divide class into five groups and give every group ten digit number. - Ask avolunteer from each group and write the assigned number according to place value of digit on the chart. Methodology: - Teacher will revise the convert numbers into figure, figure into numbers, and numbers in words. - Teacher will explain Q 5 to 8 given in exercise 1a. - Students will complete the question 5 to7 in their notebooks. Homework: - Students will complete the question 8 in their notebooks given on pg. 4					

Day 4	1: Numbers And Arithmetic operations	Identify the numbers place value.	Textbook	Introduction - Teacher will revise the concept of expanded form underline digit place value. - Teacher will make pairs of students and assign one question given on page 4 in ex1a.Q9. - When all pairs complete the questions. They will share their answer to the whole class Methodology - Teacher will explain comparing and ordering 10-digit numbers given on page 5 ex:1a with examples. - After this teacher will explain the Q9, 10. - Students will solve the Q 9in their notebooks Homework: - Students will complete the question 10 in their notebooks given on pg. 5
Day 5	1: Numbers And Arithmetic operations	- Write the numbers in expanded form. - Identify the numbers place value. - Write the numbers in ascending or descending order. - write number predecessor ad successors	Textbook	Introduction - Teacher will revise the previous lesson. Methodology - Teacher will explain expanded form of 10-digit numbers given on page 5 ex:1a with examples. - After this teacher will explain the Q, 11 and 12. - Students will solve the Q 11 & 12 in their notebooks Homework: - Students will complete the question 12 in their notebooks given on pg. 5

First day of school activity: How I like to learn

I work best when it is quiet	Yes	No
I can work when there is noise in the classroom	Yes	No
I like to work at a table or desk	Yes	No
I like to work on the floor	Yes	No
I like to work on an assignment until it is completed	Yes	No
Sometimes I get frustrated with my work and do not finish	Yes	No
I like to learn by moving around the room	Yes	No
I like to work by myself	Yes	No
I like to work in a group or with a partner	Yes	No
