

Lesson Code		2022-08-02	Level	Elementary	Total Time	40mins	Teaching Week	Aug (08 – 12)	
Subject		Mathematics	Books	New countdown 6 2 nd Edition		Page No.	10 – 15	Class	6
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1	Unit 1: Introduction to sets	- define the special types of sets. - comprehend the definitions of different types of sets.	Textbook	Introduction; - To revise the previous lesson call different students to draw Venn diagram of different sets and explain the diagram. Methodology: - Teacher will explain the types of sets given on page 7 & 8. Teacher will explain every set with the help of example given with each type of sets on the board. - Students will write all types in their notebooks. - Teacher will verbally ask Q1 and 2. And students will give the answer according to questions. Homework: - Students will complete the question 1 & 2 on their textbooks given on pg. 9 Exercise.1d.					
Day 2	Unit 1: Introduction to sets	complete the exercise	Textbook	Introduction; - Teacher will revise the types of sets by asking different questions. Methodology: - Teacher will differentiate the equivalent sets and equal sets. - Teacher will explain Q 3 to 5 given in exercise 1d. - Students will complete question Q 3 to 5 in their notebooks. Wrap up: Highlighting the key points. i.e Classify the following as finite and infinite sets. $A = \{x : x \in N \text{ and } x \text{ is even}\}$ $B = \{x : x \in N \text{ and } x \text{ is composite}\}$ Are two sets A and B equal? Give reasons to support your answer. (a) $A = \{x : x \text{ is a letter in the word SEAT}\}$ $B = \{x : x \text{ is a letter in the word TASTE}\}$ (b) $A = \{2, 6, 10, 14\}$ $B = \{6, 2, 14, 16\}$					
Day3	Unit 1: Introduction to sets	complete the exercise	Textbook	Introduction; - Teacher will revise the types of sets and their definitions Methodology: - Teacher will explain Q 6 and 7 given in exercise 1d. - Students will complete question Q 6 to 7 in their notebooks. Homework: Practice the class work.					
Day 4	Unit 1: Introduction to sets	complete the test	Textbook	Teacher will revise the chapter and take test from chapter 1 exercise 1a to 1d.
