

Lesson Code		2022-08-01	Level	Elementary	Total Time	40mins	Teaching Week	Aug (01 – 05)	
Subject		Mathematics	Books	New countdown 8 2 nd Edition		Page No.	6 – 20	Class	8
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies					
Day 1	Unit 1: Operations on Sets	- revise the basic concepts of sets - revise the sets of numbers, subsets, proper sets, union and intersection of sets	Textbook	Introduction: To seek the prior knowledge of the students, ask questions about: - Sets of numbers, sub sets and proper and improper sets given on page 6 to 8 answers given will act as a bridge for the understanding of the topic to be taught Methodology: - Teacher will explain the power set and union and intersection of three sets with example solved on page 8 to 10 in new countdown 8 2nd edition. - Ask the students solve the examples in their notebooks. Wrap up: Summarize the lesson by highlighting the key points. i.e If $A = \{0, 1, 4\}$, $B = \{3, 5, 7, 9\}$ and $C = \{9, 10\}$ a. Find $(A \cap B) \cup C$					
Day 2	Unit 1: Operations on Sets	comprehend the properties of sets	Textbook	Introduction: - Teacher will revise the previous lesson by asking the students to explain. - If $A = \{0, 1, 2, 3\}$, $B = \{3, 4, 5, 6\}$ and $C = \{6, 7, 8, 9\}$ a. Find $(A \cap B) \cup C$ b. Find $A \cap (B \cup C)$ Methodology - Explain students Associative properties of sets, Distributive property of union over intersection, distributive property of intersection over union with the help of given on page 12- 16. - Students will follow the teacher's instructions and do all the examples on their notebooks. - Teacher will explain 4 to 7 given on page 18 & 19 Ex 1 - Students will solve the question 4 to 6 on their notebooks. Homework: Students will solve the question 7 in their notebooks.					
Day 3	Unit 1: Operations on Sets	Comprehend the De Morgan's Law.	Textbook	Introduction: Recall the previous lesson. Methodology - Explain students De Morgan's Law - There are two De Morgan's Laws given on page 17. - Teacher will explain both laws with the help of example given on page 17. - Students will follow the teacher instructions and do all the examples on their notebooks. - Teacher will explain Q8 given on page 19 Ex 1 - Students will solve the question 8 in their notebooks. Homework: - Learn the law and practice the classwork.					

Day 4	Unit 1: Operations on Sets	Complete the exercise	Textbook	Introduction - Revise all concepts taught in previous three days. Methodology - Explain Q 1 to 3 and 9, from exercise 1. - Students will solve Q1 to 3 and 9 given in ex 1 in their notebooks. Homework: Students will solve the MCQ's given on page 20 on their textbooks.
Day 5	Unit 1: Operations on Sets	Complete the exercise	Textbook	Introduction - Revise all concepts taught in previous days. Methodology - Explain Q 10 to 13, from exercise 1. - Students will solve Q10 to 13 given in ex 1 in their notebooks. Homework: Practice the class work.
