| <b>Greeting Circle:</b> Teacher will greet the students and recite Tauz and Tasmiyah. Then will discuss ask about the date, day, weather and, any event that happened in their surroundings.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                               |              |                                   |                   |         | 15mins               |                                                     |
| <b><u>Routine Lesson:</u></b> Teacher will introduce them the letter “b” through flash cards. Show them the flash card of letter “b” and tell the letter’s sound. Once the students are familiar with the sound of letter “b” she will play the jingle/Video of letter “b” so that children can become more familiar with the sound. Teacher will play the video song of letter “b”. Once the students are familiar with the letter “b” now she will show them how to trace letter on sand letter.<br><b>Video Links:</b><br><a href="https://www.youtube.com/watch?v=yyET51FDt9c">https://www.youtube.com/watch?v=yyET51FDt9c</a><br><a href="https://www.youtube.com/watch?v=xQluWLwPTqE">https://www.youtube.com/watch?v=xQluWLwPTqE</a> |                                                                               |              |                                   |                   |         | 20mins               | Flash Card                                          |
| <b>Setting Up the Learning Corners:</b> Teacher will set the learning areas by adding the new appropriate resource material with the help of students. Give the instructions for using it before sending the groups into these corners.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                               |              |                                   |                   |         |                      |                                                     |
