				- Refer to the map given on page 2. enlist the names of the countries which share a border with Pakistan Wrap up: To check whether the objective has been achieved or not, the teacher will ask some questions from the students. Such as: - In which continent most of the Islamic countries are located? - Names the South Asian countries? Draw the student's attention to the info box and ask them which South Asian country has the largest area. Home Work: - Read the next lesson from pages 3-4.
Day 2	Ch-1: Our Country in the World	- discuss the features of Pakistan - discuss the relief map of the subcontinent in the context of Pakistan. - discuss the different mountain ranges located in Pakistan through a map.	Textbook	Introduction: - It is vital to refer to the Oxford School Atlas for Pakistan, page 7, to better understand relief maps with the help of the key. - Also point to the map on page 3; - Explain that this is a relief map which shows the geographical features of a region. - This helps to understand what the colours represent. ????? Can't see any!!!! Methodology: Discussion through Explanation (pages 3-4) - Discuss with the students that the main geographical feature of the subcontinent are the mountain ranges which act as a wall in the north, east, and north-west, and the mountain passes, the main river system of Indus and Ganga - Explain the mountains located in different parts of Pakistan with the help of the text given on page 4. Activity: - Divide the student into groups and draw the student's attention to the map given on page 4 - Ask the students with help of the key to tell what these colour represent on the map Written Activity: - Students will attempt the provided worksheet and paste it into their notebooks. Wrap up: Windup the lesson by asking any of the students the following questions: - What is a plateau? - Name the different mountain ranges located in Pakistan. Home Work: - Write the answer to Q no 2 in their notebook.
Day 3	(History) Ch-16: Early Pakistan	- build the knowledge of the Indus Valley Civilization	Textbook	Introduction: To check the prior knowledge of students, ask a few questions such as: - Who were the first people to enter the subcontinent from the North-west? - Who followed them and settled here permanently? Methodology: Discussion through Explanation (page 76)

Allied Schools

				- Explain to the students that different races had poured through the Khyber and Bolan Passes. - Explain that these invaders belonged to different races, religions, and cultures, the subcontinent and present-day Pakistan are a mixed bowl of people with a variety of languages, religions and cultures. - Explain to the students about the people of the ancient Indus region, who lived here thousands of years ago and their religions and culture. Written Activity: - Students will be asked to do Q2 with the teacher's guidance. Wrap up: Wind up the lesson by asking any of the given questions: - What is meant by Mohenjo Daro? - How did Mohenjo Daro vanish? Home Work: - Read the next lesson on page 77.
Day 4	Ch-16: Early Pakistan	- build the knowledge of the Indus Valley Civilization	textbook	Introduction: To check the prior knowledge of students, ask a few questions such as: - Why did the early people settle in the subcontinent? - What attracted them to this region? Methodology: Discussion through Explanation (page 77) - Discuss the following points with the class: - Meaning of Mohenjo Daro. - Location of Indus Valley Civilization and Mohenjo Daro. - Indus Valley Civilization was advanced for its time - People of Indus Valley Civilization - Main features of Indus Valley Civilization: planned towns, construction, sewerage systems, food, transport - Discuss the probabilities that may have been the reason for Mohenjo Daro to vanish. Written Activity: - Students will be asked to do Q3 with the teacher's guidance. Wrap up: Wind up the lesson by asking: - Describe Indus Valley Civilization. Home Work: - Re-read the lesson.

Topic: Our Country in the World

Name: _____

Date: _____

Fill in the blanks.

1. The natural route through a mountain range is called a _____.
2. The western area of Pakistan is fairly high land which gets very little _____
3. The highest peak is Mount Everest in _____.
4. The most important agricultural area of Pakistan are in the _____

The areas of South Asian countries are given below. Rearrange them in the right-hand column in descending order, from the biggest to smallest.

Country	Area ('000 Sq Km	
Bangladesh	147 5	
Maldives	0.3 4	
Sri Lanka	3288 3	
Bhutan	47 2	
Nepal	144 1	
India	66 7	
Pakistan	796 6
