Lesson Code		2022-08-01	Level	Elementary	Total Time	40 mins	Teaching Week	Aug (01-05)		
Subject		Social Studies (His & Geo)	Books	Oxford Secondary Social Studies for Pakistan 3			Page No.	GEO: 1-3 HIS: 87-90	Class	VIII
Day	Chapter Topic	Objectives: The students will be able to:	Teaching Resources:	Teaching Learning Strategies						
Day 1	(Geography) Ch-1: The Universe	- discuss the immensity and diversity of the universe	Globe	Introduction: to initiate the discussion: Ask the students when we celebrate Earth Day and why? Earth Day is celebrated on 22 April to protect our planet Earth and its atmosphere. Methodology: Discussion through Explanation (pages 1-2) - Ask where this planet Earth is located: it is a part of the solar system, which in turn is a part of a huge galaxy called the Milky Way. - Explain that all these stars, planets, and galaxies make up the universe. Define the universe: - In order to begin to understand these huge dimensions, read the text of this chapter topic by topic and explain. What is a light-year? It is the distance light would travel in a year. - Ask why scientists use the term ‘light year’ - Explain the structure of the Hubble Telescope and where it is positioned. - Explain the term nebulae - The Milky Way is a galaxy comprising stars and nebulae. - The Hubble telescope and Chandra X-ray laboratory have sent pictures of space showing these formations. - Teacher will do model reading in the class of page 1. Wrap up: Wind up the lesson by asking the given question: - What is Milky Way? Home Work: - Read the material read in class!						
Day 2	Ch-1: The Universe	-explain and discuss the solar system		Introduction: Initiate class discussion by: - Pasting a big picture of the solar system on the board. Discuss the positions of planets according to the distance from the Sun. Ask a few questions, such as: - How many planets are there in the solar system? - How solar system came into being? Methodology: Discussion through Explanation (pages 2-3) Suns and planets: explain the term astronomy—the science of studying the Sun, the Moon, the stars, and other heavenly bodies. - The Sun is a huge star, but it is just one of the millions of such stars in the Universe. The Sun is important to us on Earth as it is the source of energy for all living things here.						

Allied Schools

			• Explain the text on pages 2 to 4 about the solar system, the Sun, its planets, and their satellites. Also, explain why Pluto is no more a planet • Describe the structure of the Sun, its substance, size, diameter, and temperature. • Discuss why there is no life on the other planets • Emphasize why we should cherish the Earth and look after it • Do choral reading in the class on the topic solar system from pages 2-3. (Teacher and class read a passage aloud together.) Wrap up: Wind up the lesson by asking any of the given questions: • How many planets are there in the solar system? • Name the last three planets of the solar system. • Why Pluto is no more a planet? Home Work: • Read next pages 4-5.
Day 3	(History) Ch-11: The concept of the two-nation theory	-discuss the reasons leading to the demand for a two-nation state in the subcontinent - Explain the efforts on Road to Independence.	Textbook Introduction: Begin with a brief recap to jog their memory of steps towards freedom and independence in the subcontinent. • Who were the main figures (Muslim and Hindu) who spoke up for independence? • What were the Round Table Conferences? Where were they held? • Who attended and what was the outcome? Methodology: Discussion through Explanation (pages 87-88) • discuss with the students that it is claimed that the Indo-Pak subcontinent has never been a single nation as it was inhabited by people of different religions and ethnic groups, who spoke different languages and had different cultures, • Discuss the situation in the subcontinent after the downfall of the Mughals and the rule of the East India Company, and later the British government. • There were many independent states, big and small and most of them were unable to act against the will of the British government. • Discuss the British rule in India and its impact • Discuss with the students the components of the Indo-Pak subcontinent which comprised: Hindus 65%, Muslims 24%, and 11% (Sikhs, Jains, Parsees, Christians, etc.) The ratio between the Hindus and the Muslims was 3:1. • Talk about the areas with a majority of Muslims (North-west and North-east of the subcontinent.) • Discuss with students if the British government was thinking of dividing the subcontinent from the very beginning • Discuss that our founder Quaid-e-Azam demanding two separate countries.

Allied Schools

			- Both wanted a single state with one central government for the whole country to handle vital issues e.g. finance, defense, and international relations, and local affairs to be handled by the provincial assemblies. - The Quaid too advocated a single nation until 1940. - Discuss the concept of the two-nation theory which started in the 18th century Written Activity: - Show the students the map of the subcontinent before the partition in 1947 - Students will read the first two paragraphs on page 87 - Students will write the answer of Q: 1 in their notebook on page 93 Wrap up: Wind up the lesson by: - Recapping the main point i.e. reasons leading to the demand for a two-nation state in the subcontinent The teacher will ask some questions from the students. Such as: - When did the concept of the two nations start? - Name the two leaders who start the concept of two-state. - For how many century British rules in the subcontinent? - How many independent states were in the subcontinent by 1911? - What did Quaid –e Azam think about the people of the subcontinent? - What kind of imagination British have? Home Work: - Read the next lesson on pages 89-90.
Day 4	Ch-11: The concept of the two-nation theory	-Describe the efforts of Sir Sayyid Ahmed Khan in awakening the Muslims -Describe the contributions of Sir Syed Ahmed Khan	Textbook Introduction: To check the prior knowledge of students, ask a few questions such as: - Who was Sir Sayyid Ahmed and why was he famous? - How did Sir Sayyid Ahmed serve the Muslims of India? - Did Sir Sayyid Ahmed live to see an independent Pakistan? Methodology: Discussion through Explanation (pages 89-90) - Explain to the students that Sir Sayyid Ahmed Khan tried to highlight the importance of education and modern science and knew that Muslims could not progress without knowledge. - He tried to stop the Muslims from opposing the British. - He also tried to make the British realize that they were being unjust to the Muslims. - Sir Sayyid Ahmed Khan made many efforts in awakening the Muslims of the subcontinent. - Sir Syed Ahmad Khan had a great concern for the education of Muslims. - He practically worked for that and in 1875, he established the Mohammedan Anglo-Oriental College in Aligarh; - Explain why he presented the ‘Two-Nation Theory’.

Allied Schools

				Written Activity: - Do choral reading in the class on the topic Sir Sayyid Ahmed Khan page 89 (Teacher and class read a passage aloud together.) Students will solve Q: 2 in their notebook on page 93. - Have a class discussion on the following aspects of the life of Allama Iqbal ✓ Early life ✓ Education ✓ Awards ✓ Contributions Wrap up: Wind up the lesson by asking any of the given questions: - What is meant by the two-nation theory and why it is important for Muslims of the subcontinent? - Briefly describe the contributions of Sir Syed Ahmed Khan. - Who is known as the national poet of Pakistan? Home Work: - Read the next lesson on page 91.
