

Lesson Code		2022-08-01	Level	Primary	Total Time	40mins	Teaching Week	August (01-05)
Subject		Social Studies	Books	New Oxford Social Studies for Pakistan (Fourth Edition) 4		Class	IV	
Day Time	Chapter Topic	Objectives: The students will be able to:	Teaching Resources :	Teaching Learning Strategies				
Day 1	Geography 1. The Earth in space	describe the position of Earth in space.	Textbook	Introduction: Start the lesson by asking the following question: 1. What is the shape of the Earth? Instructions: 1. Ask students one by one to read the material on page no: 2. 2. Analyze the position of Earth in space. 3. Explain about the machines called space probes. Wind up: Wind up the lesson by asking following question: 1. What are space probes?				
Day 2	Geography 1. The Earth in space	define key terms such as orbit, axis, equator and hemisphere.	Textbook	Introduction: 1. Initiate the lesson by reading definitions of orbit, axis, equator and hemisphere on page no: 3. Instructions: 1. Define Orbit. 2. Explain the imaginary line that is called “Axis”. 3. Highlight the concept of “Equator” and “Cardinal Directions”. 4. Define all terms with the help of picture on page no: 3. 5. Complete worksheet 1. Wind up: Wind up the lesson by asking following question: 1. What is the difference between orbit and axis? Homework: Learn the definitions of orbit, axis, equator and cardinal directions.				
Day 3	Geography 1.The Earth in space	define key terms such as intermediate directions, rotation and revolution.	Textbook	Introduction: 1.Initiate the lesson by reading definitions of intermediate directions, rotation and revolution on page no: 3. Instructions: 1. Define the term Intermediate directions 2. Explain the term rotation. 3. Analyze the concept of revolution. Wind up:				

				Wind up the lesson by asking following question: 1. What is the difference between rotation and revolution? Homework: Learn the definitions of intermediate directions, rotation and revolution.
Day 4	Geography 1.The Earth in space	• Explain how rotation of the Earth causes day and night and also affects different seasons and climate.	Textbook	Introduction: 1.Initiate the lesson by reading content on page no: 3. Instructions: 1. Explain the formation of day and night. 2. Analyze the effects of the rotation and revolution of the Earth. Wind up: To conclude the lesson, answer the following questions on page no: 5 Homework: Complete work page exercises on page no: 6 and 7, with the help of book material.
